## Product Data Sheet

# Bollards

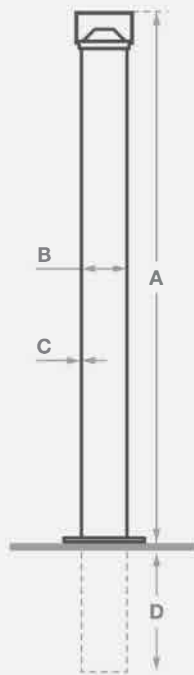

## Removable Bollards

Key-locking removable bollards

- 90mm post with 5mm wall thickness
- Post locks into an in-ground locking sleeve that can be cast into concrete or retro-fitted into an existing concrete slab

Assert key-locking and removable powder coated bollards are designed for protecting property and assets, whilst still allowing the flexibility of access control to restricted areas. Manufactured using heavy galvanised steel. Commonly used in car dealerships, warehouse premises and traffic control applications.

- Rounded profile
- Galvanised steel
- Weather resistant
- Fast installation
- Powder coated
- Post locking
- Removable

## Specification Guide

Install Assert Bollards (insert code) to all car park areas in accordance with manufacturer's recommendations. Available from: Classic Architectural Group, 1300 244 377, info@classic-arch.com
