Product Data Sheet

Coir

Natural Coir Matting

Coconut fibre carpet style matting

Integra Coir is made of natural coconut fibres, spun mechanically to give the mat a uniform and regular pattern with little fibre loss. The fibres are held together with a latex vinyl backing. This environmentally friendly product is the perfect quick fix.

Specification Guide

Install Integra Coir carpet style entrance matting in colour (insert colour), comprising of dual-fibre large crush-resistant polypropylene fibres. If required, install Integra INFR08 aluminium mat frame to suit recess, or bevelled rubber edging for loose lay applications, in accordance with manufacturer's recommendations. Available from Classic Architectural Group, 1300 244 377, info@classic-arch.com
