CA290 Adhesive

Instant Grab Construction Adhesive Spray

Classic Adhesive 290ml (CA290) is a high quality instant grip polymer adhesive designed for the building and construction industry. The product is odourless and silicone, solvent, phthalate, PVC and isocyanide free.

Features

- Excellent adhesion on almost all types of surfaces
- High abrasion and tear strength
- UV, water (salt & fresh) and weather resistant
- Temperature resistance is -40°C to 100°C

Application

Can be applied to almost any surface. Always test prior to application. Not recommended for application on PE, PP, PC, PMMA, PTFE, Neoprene, Teflon, bituminous surfaces, or for continual water immersion and expansion joints. Great for interior and exterior applications for building and industry situations.

It is advised that CA290 is applied with a heavy-duty applicator gun. CA290 must be applied in volumes relating to material surface and weight of object, through large V shaped nozzles (as supplied). Apply in triangular beads, approximately 20 mm apart, then press the 2 materials together firmly so that the thickness is no thinner than 3mm. CA290 should not be applied in dots. If applied correctly no support is required during curing.

Size:
290ml

For best performance

Use V-Shaped Nozzle (supplied) to allow a good uniform flow

Use Caulking Gun with at least a 18:1 ratio

Apply in straight lines with the V-shaped groove facing up, for triangular beads

For vertical applications, apply beads vertically
