Installation Guide

EziHold Square Bike Rack

Layout Guidelines & Fixing

- Ensure your racks are mounted at 500mm spacings if staggered, if not staggered they need to be at 700mm spacings
- Ensure you allow 1200mm clearance from the wall, and an additional 1500mm for the access aisle, a total of 2700mm
- Fix racks to the wall using 4x fasteners (M8 x 60mm screw bolt)
