Aluminium Safety Stair Nosing for Rebated Application

The Tredfx rebated product range has been developed to meet growing demand for modern low-profile stair nosings. Unobtrusive yet still sufficiently visible to fulfill its purpose. This range is designed to be rebated into the substrate so that the nosing is level with the surface of the stairs. Tiles, rubber or carpet can also be butted up to the nosing to achieve the same streamlined appearance.

Features

- Interior and exterior use
- Square back, squared front
- Ribbed aluminium insert
- Pre-drilled and countersunk

Application

Rebated – Timber / Tile (Suggested rebate depth: 6-7mm)

Supply Includes:
