# INB033

Aluminium Safety Stair Nosing for Rebated Applications

The Tredfx rebated range has been developed to meet growing demand for modern low-profile stair nosing. Unobtrusive yet still sufficiently visible to fulfill its purpose. This range is designed to be rebated into the substrate so that the nosing is level with the surface of the stairs. Tiles, rubber or carpet can also be butted up to the nosing to achieve the same streamlined appearance.

## Features

- Interior and exterior use
- Square back, square front
- Ribbed metal

## Application

Rebated - Timber / Tile

### Supply Includes:
