

Classic Integra

Shield 9100

Vinyl Scraper Matting

Classic Integra Shield 9100 is an unbacked heavy duty 'Z-web' mat that is designed for recessed applications in demanding environments. The peaked edge of each web provides increased slip resistance and a very effective scraping action for dirt, grit and particle removal. Being unbacked means the trapped grit can easily pass through for easy clean up.

Also suitable for wet areas, such as snow regions removing compacted snow with ease. This matting will resist 'pack down' and has been lab tested for extremely high traffic levels - more than one million people per year.

Features

- Thick and extremely durable
- Z-web construction allows dirt and moisture to easily pass through
- Able to withstand heavy traffic of up to 1 million footfalls per year
- Peaked edge provides a slip resistant surface
- Scrapes dirt and debris from shoes
- Able to withstand wheelchair and light wheel traffic

Application

Recessed into a mat well for high traffic areas. Suitable for snow and wet areas.

Suitable for: Commercial office buildings, apartments, churches, schools, hotels, motels, factories, etc.
