Tactile Installation Layout Templates

Classic provides a range of installation templates to suit every tactile application. Their size and consistent layout, guides you to achieve the correct spacing for the installation of TGSI to the AS1428.4.1-2009.

Features

- Provides a cost effective, simple and easy method of installation
- Unique interlocking modular panels allow tactile pads of any length by any width
- Easy to cut to suit site conditions where shaping around columns etc. may be required

Application

Installation of tactile indicators to correct spacing in accordance with AS1428.4.1-2009. requirements.

Benefits

Designed to make your installation easy. Small and easy to move and lock together to suit the area required.

Size

300mm x 600mm
