Classic Integra

Vantt 7500

Roll-up Aluminium Matting

Classic's Integra Vantt matting is Australia's Only Global GreenTag^{Cert™} GreenRate[™] Level A certified entrance matting*. Specify Integra Vantt on your next project to earn maximum Green Star credit points and promote a healthier built environment.

The Integra Vantt 7500 innovative flexible interlocking system features an alternating pattern of aluminium scraper bars, with a twin colour dual width strip of the Zone non-static polyamide pile matting. It features an innovative flexible interlocking system that allows for easy customisation to fit any shape, with individually replaceable slats to ensure long-lasting performance. Unlike competitors, our inserts are constructed as a complete piece per strip, providing greater durability and ensuring the mat retains its sleek, premium look for years, without gaps or movement.

The aluminium frame is made from low-emission materials, and the Zone inserts are GUT-certified, meeting our strict sustainability standards. The efficient framing system ensures straightforward installation, while local manufacturing and supply contribute to shorter lead times, typically under two weeks.

*Please note our Ribbed Polymer and Grit inserts are not GreenTag[™] certified.

Application

Classic Integra Vantt 7500 requires a depth of 14mm, therefore can be either surface mounted or recessed into airlocks and lobbies. The product can be cut into any shape or form providing the solution for architecturally shaped entrances and revolving doorways.
