## Classic Tredfx

# IBB121

Aluminium Safety Stair Nosing for Rebated Applications

The Tredfx product range has been developed to meet growing demand for modern low-profile stair nosings. Unobtrusive yet still sufficiently visible to fulfill its purpose. This range is designed to be rebated into the substrate so that the nosing is level with the surface of the stairs. Tiles, rubber or carpet can also be butted up to the nosing to achieve the same streamlined appearance. All profiles are for either interior or exterior use.

### Features

- Interior and exterior use
- Square back, square front
- Ribbed polymer insert
- Pre-drilled and countersunk

### Application

Rebated - Timber / Tile

#### Length:

5850mm  
(Cut-to-length service available)
