Bicycle Racks - Hoop Cast In

Stainless Steel or Galvanised

Classic's bicycle rail is an inground bike rack that allows up to two bikes to be secured. The cast in application makes it tamper proof and long lasting.

Features

- Capacity to support up to 2 bike frames
- Available in either hot dipped galvanised or 316 stainless steel finish

Suitable for:

Ideal for schools, shopping centres, walkways or warehouses.

Application

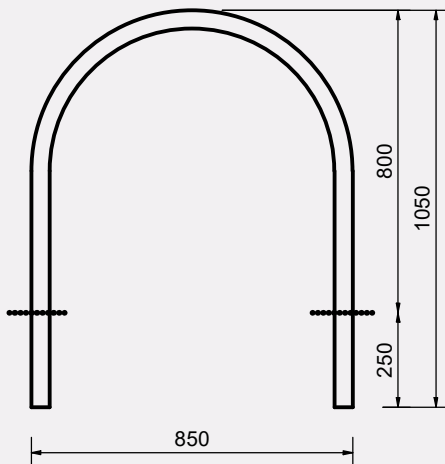

Designed to allow the both the bicycle frame and/or wheels to be secured. Best suited to short to medium term parking.
