# Pathfinder PH41P-RAIL

Polyurethane TGSI Individual Tactile for Rail Applications

The Polyurethane range of tactile indicators continues to provide an ultimate solution for the creative designer and specifier. They are designed for installation in aesthetically sensitive applications or where the use of vibrant colours is needed. Polyurethane individual tactiles allow the surrounding floor surface to show between the tactile indicators for an architecturally enhanced appearance.

### Features

- Cross-hatch top
- Fin-shaft stud
- Fin-shaft rear stud specifically designed for rail applications
- Sloped sides for safe transition

### Application

Interior and exterior

### Colours
