Classic Tredfx

FRP60

Fibreglass Warning Tactile Tile

Classic's Fibreglass 600 x 300 Tactile Tiles are designed for years of use, even in the harshest environments. They are highly impact resistant and feature exceptional UV protection, to ensure they remain colourfast for years. This highly durable product is made from super strong reinforced fibreglass, perfectly suited to high traffic pedestrian areas.

Features

- 600mm x 300 mm
- Designed for years of use in the harshest environments
- Highly impact resistant, durable in busy pedestrian traffic areas
- UV resistant & long-lasting colour
- Fast and easy to install & simple to retrofit
- Zero downtime, install and walk on immediately

Application

- Ideal for exterior applications such as footpaths and pedestrian crossings
- Suitable for a wide range of substrates
- Installed using screws (supplied) and glue (not supplied)
- Compatible with Classic Tredfx CA290 Glue, **the ratio required is 1 tube of glue per 4 tiles.**
