EziHold Tri Post Mounted

Triangular Cradle Bike Rack

The Classic EziHold Tri Post Mounted is the ultimate space-maximising solution for bike parking in compact areas. Designed to enhance capacity, this innovative post is combined with Classic's EziHold Tri bike rack and can be configured for single-sided or double-sided use, adapting seamlessly to your specific needs. Perfect for tight spaces, the EziHold Tri Post Mounted optimises bike parking efficiency without compromising accessibility.

Features

- Maximises bike parking in compact areas with an adaptable design.
- Configurable for single-sided or double-sided use to suit various needs.
- Optimises parking efficiency while maintaining accessibility in tight spaces.

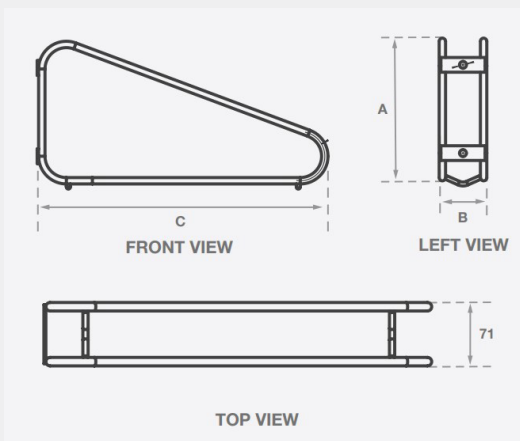

Application

The vertical posts can be installed for single or double sided use. We recommend posts be installed at a minimum spacing of 500mm, with racks installed at alternating heights to comply with AS2890.3. Please note this product has a 3 week lead time.
