Concrete Paver - Directional

Integrated Concrete Paver Tactiles

Classic's directional integrated concrete tactile pavers are strengthened with fibre reinforcement, guaranteeing robustness and longevity for any commercial or infrastructure setting. They come in a wide range of colors and dimensions, catering to the diverse requirements of your next project.

Features

- Highly durable with a compressive strength of over 48 mpa
- Made from wet-cast high strength concrete mix, they are non-slip as tested to Australian and New Zealand standards
- UV resistant and of superior quality
- Available in 300 x 300mm (40mm thick)
- Available both Directional and Warning

Application

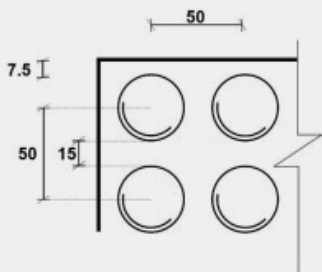

Exterior
