## Coat Hanger Frame Bike Rack for 10 Bikes

The MultiPark 10 is our largest bike rack, designed to keep multiple bicycles neatly organised. Built with a galvanised or stainless steel coat hanger-style frame, it offers outstanding durability, strength, and rust resistance. This easy-to-install rack maximises storage space, making it perfect for garages, sheds, or outdoor areas. Enjoy an efficient, clutter-free way to store your bikes with this versatile and robust solution.

### Features

- Single or double sided access
- Heavy duty steel or 316 stainless steel welded construction
- Easy installation process

### Application

Surface Mount

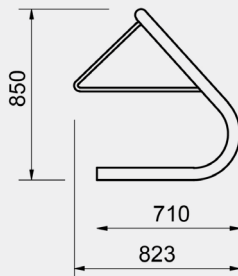

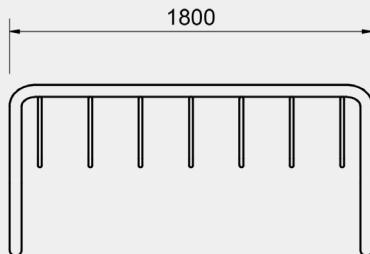

Single side access - 5 bikes using inside bays and 1 bike on each outside rail, total of 7 spaces

Double sided access - 1 bike alternating on inside bays (entering from each side) and 1 bike on each outside rail, total of 10 spaces

### Finish

Galvanised      Stainless Steel
