Classic

Pipe Protector

Galvanised

Classic's Pipe Protectors shield downpipes, cables, and other exposed assets from damage caused by vehicles like cars and forklifts. Constructed from durable galvanised steel, these protectors offer a robust barrier to prevent costly and disruptive damage in high-traffic areas. The galvanised material ensures long-lasting protection, making it ideal for both indoor and outdoor environments. Engineered for easy installation on walls or existing structures, these protectors require minimal up-keep thanks to their high-strength construction.

Features

- Industry leading safety and durability
- Effortless installation and minimal maintenance
- Custom sizes available
- Galvanised steel construction

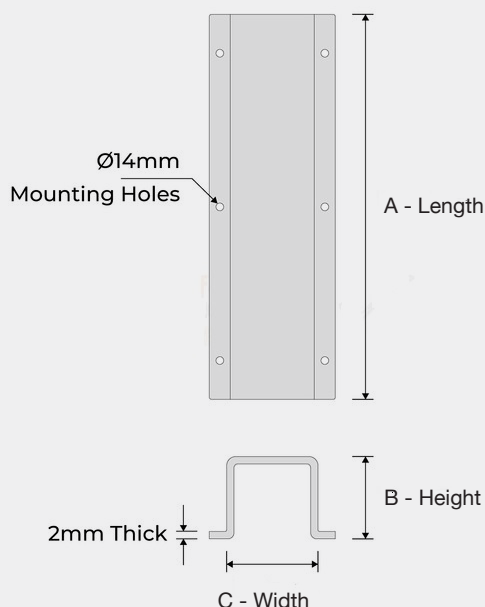

Application

Secure over pipe using screws and screw holes, as shown.

Finish

Galvanised

Weather resistant
